Number One

VM/370—a study of multiplicity and usefulness 4
L. H. Seawright and R. A. MacKinnon

The changing virtual machine environment: Interfaces to real hardware, virtual hardware, and other virtual machines 18
R. A. MacKinnon

VM/370 asymmetric multiprocessing 47
L. H. Holley, R. P. Parmelee, C. A. Salisbury, and D. N. Saul

A formal approach for communication between logically isolated virtual machines 71
R. M. Jensen

Virtual Control Storage—security measures in VM/370 93
C. R. Attanasio

Evolution of a virtual machine subsystem 111
E. C. Hendricks and T. C. Hartmann

Managing VM/CMS systems for user effectiveness 143
W. J. Doherty and R. P. Kelisky

State sampling of interactive VM/370 users 164
W. H. Tetzlaff

Number Two

Computing and communications—A perspective of the evolving environment 189
L. M. Branscomb

An introduction to network architectures and protocols 202
P. E. Green

Public data networks: Their evolution, interfaces, and status 223
J. R. Halsey, L. E. Hardy, and L. F. Powning

SNA and emerging international standards 244
F. P. Corr and D. H. Neal

SNA multiple-system networking 263
J. P. Gray and T. B. McNeill

Routing and flow control in Systems Network Architecture 298
V. Ahuja

Evolution of a laboratory communication network 315
R. S. Moore

Potential technology implications for computers and telecommunications in the 1980s 333
W. D. Frazer

Number Three

Performance analysis of complex communications systems 356
H. M. Stewart

A distributed information system study 374
K. Ziegler, Jr.

An office communications system 402
G. H. Engel, J. Groppuso, R. A. Lowenstein, and W. G. Traub

A research perspective on computer-assisted office work 432
A. M. Gruhn and A. C. Hohl

Automatic programming for energy management using sensor based computers 457
M. J. Shah

Volume 18
1979

Number Four

An integrated approach to centralized communications network management 484
R. A. Weingarten

An operating system for distributed processing—DPPX 507
S. C. Kiely

I/O facilities of the Distributed Processing Programming Executive (DPPX) 526
H. R. Albrecht and L. C. Thomason

Data management for the Distributed Processing Programming Executive (DPPX) 547
A. K. Fitzgerald and B. F. Goodrich

Design of the IBM 8100 Data Base and Transaction Management System—DTMS 565
F. C. H. Waters

Distributed processing: An assessment 582
H. Lorin
